NATIONAL WAGYU BULL SALE

Roma – 3rd August 2023

CONDITIONS OF SALE

The sale will be conducted under the ALPA Conditions of Sale as applied by the Australian Wagyu Association (AWA) to generate a high level of quality assurance.

1. All live lots, sires and dams are AWA registered as Fullbloods.
2. BREEDPLAN Data published in the sale catalogue is current at the time of printing. Latest data is in the online catalogue.
3. BREEDING SOUNDNESS 7 GUARANTEES OF FERTILITY: All bulls offered for sale have passed a semen fertility test by a registered veterinary surgeon and a semen evaluation certificate will be available.

GUARANTEES OF FERTILITY

BULLS: All bulls are guaranteed breeders and to so prove within six months of the date of sale or by reaching the age of 24 months whichever date shall be later.

CLAIMS: Claims under the above guarantees of fertility must be made to the vendor within six months from the date of sale and prior to the animal entering a quarantine area other than on the vendor's property.

- Claims must be accompanied by a veterinary certificate which must clearly identify the basis of the claim.
- Infertility resulting from injury or disease occurring after the sale of the animal will not be covered by this guarantee.
- The vendor retains the right to have the animal placed on a property nominated by the vendor or returned to the vendor's property for further assessment of fertility for a period not exceeding six months. In the event of the animal being proven fertile within the period, the costs incurred shall be borne by the purchaser. In the event of the animal not being proven fertile within the period the costs incurred shall be borne by the vendor.

LIABILITY OF A VENDOR: Except for costs defined elsewhere in the conditions of sale, the liability of a vendor in respect to claims relating to fertility shall not exceed the purchase price of the animal(s) or provide mutually agreed upon replacement animals.

REFUNDS: In the event of a claim substantiated and the purchase price being refunded, the animal(s) shall automatically become the property of the vendor and be returned to the vendor or be disposed of according to vendor instructions at vendor's expense.

The guarantee is voided automatically if the animal is returned to the vendor in poor physical condition or with any injury as determined in the sole discretion of the vendor acting reasonably, or if tests carried out on behalf of the vendor within 14 days of return proved positive to any disease which may affect the animals fertility or ability to breed naturally, or the purchaser admits that it has or the vendor forms the view acting reasonably that the purchaser has collected and stored semen from a bull or has performed super ovulation or flushed a female.

In the event of a dispute as to whether a Lot is a breeder, such dispute shall be resolved by the vendor and the purchaser and the auctioneer. While the auctioneer will use their best endeavours to assist, shall have no liability or responsibility in that regards. In the event that a Lot is alleged or proved to be a breeder the purchaser shall nevertheless be obliged to pay the auctioneer the full price and any other monies or interest payable by the purchaser in accordance with these terms and conditions.

4. **PRE-SALE INSPECTIONS:** All Lots will be available for inspection on the afternoon prior and on sale day at the sale venue.
5. **GENETIC CONDITIONS:** Results of DNA testing for specific genetic conditions appear in this catalogue which indicate the Lots status and whether it is DNA tested free or 'free by pedigree' of B3, CHS, CL16 and F11.
6. **BIDDING:** The sale will be a live auction with an online interface through Elite Livestock Auctions allowing appropriately registered potential buyers worldwide to bid. Potential online buyers should register with elitelivestockauctions.com.au.
7. **INSURANCE:** Ownership of a Lot changes to the Buyer at the fall of the hammer. Insurance is recommended and will be available at the sale.
8. **TRANSFERS:** The Agents transfer the ownership of live Lots to the new owners at no cost to the Buyer.
9. **FREIGHT & DELIVERY AFTER SALE:** Freight is the Buyers' responsibility to arrange and pay for. The Agents will liaise with Dick Smith Transport, Dubbo, NSW for interstate deliveries. Contact Stephen Smith 0428 636 236.
10. **GST:** The sale will be conducted on a GST exclusive basis and GST of 10% will be added to the sale price on the invoice.
11. **RISK & LIABILITY RELEASE:**
 - Any person visiting Roma Saleyards does so at his/her own risk.
 - All visitors release the vendors and agents from all actions or demands due to any loss, death, damage or injury occurring on the premises.
 - The vendors or agents are not responsible and have no liability for any death or injury to any person or any loss of or damage to visitors, their property or otherwise.
12. **HOW TO BID:** Registered bidders can bid live at the auction or online through elitelivestockauctions.com.au or by telephone via a nominated Agent/third party approved by the Agents.
13. **BIDDING VARIATIONS (PER LOT):** Lots will be offered for sale on a per head basis.

CARNANA WAGYU

MEMBER ID **BUL**

SELLING 6 BULLS – LOTS 14, 15, 26, 27, 67, 68

Situated in the picturesque valley of the Mann River in the Upper Clarence District of north-eastern NSW, Carnana Station Wagyu has been active in breeding Wagyu cattle for over 20 years. The original Carnana Station herd was built around some of the great foundation lines of the breed under the auspices of the late Dr Simon Coates, with breeding stock sourced from Sumo Cattle Co and other elite genetic sources. Current management is very successfully operating a high-grade fullblood herd tailored toward the production of high marbling, high growth steers for feedlot entry and easy-care quality sires for sale.

GENEFLOW WAGYU

MEMBER ID **GFF**

SELLING 12 BULLS – LOTS 4, 24, 25, 57-65

GeneFlow is a young genetics company with a Wagyu & Angus Stud, Located at Deniliquin NSW, it was started May 2019 with the purchase of top performance females from leading Wagyu studs. Our goals are to produce Elite Stud Stock for a national market, with 1% Marble Score, & a high degree of Marble Fineness, combined with growth & females that are positive for milk. The bulls on sale at Roma were purchased last year, to run with 800 Angus recipis, as cover bulls. They are in paddock condition, all very quiet and selected to breed F1's.

HAMILTON PARK WAGYU

MEMBER ID **HPW**

SELLING 21 BULLS – LOTS 10-13, 35-40, 69-74, 83-87

Evolving over 26 years, with 3000 wagyu breeders, Hamilton Park Wagyu prides itself on its own unique Australian Story. A family owned and operated business, making incredible wagyu beef accessible to the everyday Australian consumer. Hamilton Park is a vertically integrated business, we can trace genetics from birth, select and use our own embryos, rear our own cattle on fodder that we have grown for them and process our own wagyu beef in our own butcher shop. With the adoption of Genomics our genetics have constantly adapted throughout the years. Hamilton Park is currently preparing 100 Bulls for catalogued and private treaty sales for the upcoming joining season.

IRONGATE WAGYU

MEMBER ID **IGW**

SELLING 6 BULLS – LOTS 2, 3, 20-23

Through our vertically integrated business we collect a significant amount of performance data for analysis. Using our AI program to produce fullblood Wagyu cattle that are profitable, we also have over 500 females and 3 sires in the AWA Progeny Testing Program (PTP). To continually develop our herd, we select key replacement breeding cattle using our progeny testing and carcass data. We select for fertility, growth, and efficiency traits. Our breeders are large framed and early maturing – our progeny can produce heavily marbled carcasses, with large EMA and HSCW at 26-32 months for our FUTARI Wagyu boxed beef program.

JEMALONG WAGYU

MEMBER ID **JPC**

SELLING 5 BULLS – LOTS 16, 17, 50-52

Jemalong Pastoral Company is a family owned and operated enterprise which started breeding F1 Wagyu in 2008. In 2017, using Sumo Cattle Company genetics, and under the guidance of Dr Simon Coates, the operation was expanded to also breed fullblood Wagyu.

With access to irrigated pastures and located in a high rainfall area we ensure the cattle are given ample protein and energy to enable consistent growth.

Our aim is to breed quality cattle in good health with excellent development and a quiet temperament which are suitable for both fullblood breeders and F1 producers.

LENDARLOU WAGYU

MEMBER ID **HLK**

SELLING 6 BULLS – LOTS 53, 54

Lenny and Darren Henschell operate a small holding of 640 acres north east of Dalby at Moola. We run about 80 fullblood breeders and recipients. We usually flush cows twice a year. We have entered the RNA Paddock to Plate three times and have done very well for a small operation. 2018 – Champion Carcase, 2019 Champion Carcase, 2019 3rd place for Pen of Six, 2020 2nd place for Pen of Six, 2020 2nd place for Pen of Six Best Value, 2020 3rd place Overall for Pen of Six. We breed bulls for F1 to fullblood markets to produce good carcass results.

HOW TO REGISTER with ELITE LIVESTOCK AUCTIONS

Simply go to www.elitelivestockauctions.com.au using your desktop, laptop, iPad, iPhone or android device.

Click on the **"Sign Up"** page / link

Create a bidding profile using the bidder registration page.
(You can either register as a livestock agent, company or private buyer)

Agree to the Elite Livestock Auctions Terms & Conditions and the Selling Agents Sale Terms & Conditions as printed in the official Sale Catalogue

Click **"Register"**

You will then be notified by email that an account has been created.

Once an account has been created you are all **"Set to Bid"**

Each Auction can then be viewed by clicking **"Live Auction"** logo on the Elite Livestock Auctions website.

Once you receive email notification that your account has been created please go to the sale you wish to bid at and click **"Request to Bid"**

The sale will then approve your application to bid and on the sale catalogue you will see **"✓ Bid Request Approved"**

On Sale day simply login, click "Enter Auction" on the catalogue page and you can start bidding.
(There is no need for software download)

At the completion of the auction, invoicing will be carried out as per your registration details by the Selling Agents.

ROCALA WAGYU

MEMBER ID **ROC**

SELLING 17 BULLS – LOTS 7, 8, 28, 29, 45-49, 79-82, 91-94

Rocala has been breeding Fullblood Wagyu since 2005, in 2006 we put a line of Blackmore embryos in followed by a Goshu line in 2007. Back then we only relied on carcass data to breed from. We had some early carcass data from Maydan feedlot in 2008 where we used to custom feed our animals and sell the beef into Sydney. We had a client list of over 800 customers and believe we were the first company to sell boxed Wagyu beef into homes from our own animals. From that data in 2008 until now we have been flushing all our top performers for the last 15 years, every year brings new data and new genetics to move forward with. We now have 300 Fullblood Registered Wagyu breeders and our AI and ET work is still focused on carcass data, having faith in that data and our cows has been a key to Rocala's success. A Gold Medal win for Jack's Creek in The Fullblood Class at the Wagyu Branded Beef Competition at the AWA Conference this year with the highest marbling fineness in its class was bred by Rocala Wagyu, the Sire ROCFP00810 "THE ROC" is a direct result of breeding to carcass data. All Rocala Bulls had their Trivalent Tick Vaccine on 15-06-2023.

MIKU MOJO Q28 is in the AWA first Progeny Test Program as a Link Sire. He now has 85 registered progeny in 18 herds in Australia, Canada, EU and USA. MOJO's sire is CCOFG0113 recognized for his freak-like genetics for both marbling and growth. A superior animal with proven ability to produce large framed well-structured offspring. He has 1255 registered progeny. He has been proven through the Macquarie program and has high-value carcass ability. MOJO's dam (TBRFK0034) sold at the 2019 Elite Auction for \$200,000. At that time, she was the female with the highest Marble Score in Australia. Currently MS +3.5, Marble Fineness +0.54. K34's pedigree includes reliable bloodlines, Kitateruyasudoj J2810, TF148 and Hikohime genetics. MOJO is a unique combination of exceptional proven growth carcass traits from his sire and the deep marbling credentials of his dam. Dam - No. of Calves 4 Age/Years 9.

Irongate Sunteruyasu S347 has to be one of Irongate's greatest, well-rounded sires produced in the 'S' drop calving year. Now grown out to a great working size, he has huge potential to create some great progeny in an F1 or fullblood Wagyu herd. Sired by the super-sire, Sunnyside Q0540, bringing across some favourable traits such as his short GL, low RF as well as his super high MS and MF. This package of EBV traits has generated some impressive index figures, allowing him to be used over your heifers and/or cows. A small volume of semen has been retained by Irongate Wagyu for internal use only. Dam - No. of Calves 3 Age/Years 4.5.

Irongate Michifuku S630 is an incredible young bull, and a great outcross sire for any fullblood or F1 herd. Sired by our Progeny Test Program bull - P788, producing an incredible blend of carcass outcomes with super-high MS & MF, a great EMA, as well as favourable GL and BW. He is the highest MS & MF progeny of P788 with some huge potential to be produce great Wagyu calves in the future. Dam. - No of Calves 4 Age/Years 6.

T077 with a MBS of 3.3 and a Marble fineness of 0.46% is well above top 1% for both traits, add to that an EMA that sits just under top 1% at 8.1 and you have a bull that will raise all your important traits. Sired by Gold medal winning P810 "The ROC" at this year's AWA Carcass Competition coming from a TF148 line and on his Dam side going back to a Michifuku line. The ROC's Dam W023 best carcass is 522.5kg's and MBS:9. Collect him for 100's of straws and AI him to all your cows to raise all of the important traits. Dam - No. of Calves 2 Age/Years 4 year old/2019. All Rocala Bulls had their Trivalent Tick Vaccine 15-06-2023.

Irongate Antshigenami S199 is an exceptional young bull produced using Arubial Anticipated Q0014 and is amongst the top 1% of all Anticipated progeny so far. The great sire, Anticipated, now with over 300 progeny, presents an outstanding phenotype, with some even stronger EBV traits. Although on the lower side for his growth EBVs, he has exceeded all expectations and is growing out to be a strong young bull. This sire displays some exceptional EBVs across the board and will be a great asset to anyone's herd, for both fullblood and F1 Wagyu production. Dam - No. of Calves 1 Age/Years 4.

Irongate Sunitoshige S227 is another great progeny from the rising super-sire, Sunnyside Q0540. S227 continues to amaze us with the progression of his EBVs and has been continually rising since we first started keeping an eye on him. Not to mention his strong phenotype and docile temperament. This bull comes ready to work with some seriously impressive BBSE figures. Use this bull over your heifers and cows for some great outcomes. Dam - No. of Calves 18 Age/Years 17.5.

Irongate Bondmaynami S139 is a son from the well-known Arubial Bond Q007 sire. S139 is an absolute ripper bull, look at the size of his EMA EBVs, coupled with his MS & MF, you can only expect great things from him. Presenting some great outcomes from his BBSE, this bull can be used naturally or in your AI program and can be used comfortably over cows or heifers to produce fullblood or F1 calves. A small volume of semen has been retained by Irongate Wagyu for internal use only. Dam - No. of Calves 2 Age/Years 4.

Irongate Bondmaynami S126 is an outstanding young bull, presenting some incredible carcass and maternal EBV traits. Most notably his MS and EMA relationship, whilst providing some favourable Gestation Length and Birth Weight figures. From the upcoming proven sire of Arubial Bond Q007, and Irongate Michiko Q1176, we have created an unrivalled blend of maternal and carcass traits all in one bull. Free from all genetic recessive conditions. This bull has presented some impressive semen test results, even at a young age. Dam - No. of Calves 2 Age/Years 4.

T0790 is another direct son of Shigesigetani with mbs of 2.2, EMA above top 5% at 7.3 and +29 cwt. You will notice Suzutani as Dam of Shigesigetani she is also Dam of DM100 who is 2nd to none and Dam of Sanjiro who at one stage was trait leader in EMA in the whole of the AWA database and also the sire of Jnr's Dam. Suzutani is where the EMA comes from. T0790's dam side goes back to ROCFCW415 a Blackmore embryo bought in 2006 with many others. W415 and her embryo brother from the same line have proven to be our best performing animals from that stable. This build of Shigesigetani over Michifuku go back to TF148 will not fail you. Dam - No. of Calves 6 Age/Years 5 year old/2018. All Rocala Bulls had their Trivalent Tick Vaccine 15-06-2023.

T0787 is the first of the specialty line of direct Shigesigetani sired bulls, all 5 of them are a direct result of careful breeding selection through ET work. The selection of females we used for him is all based on carcass data and it seems the ebv's have come along for the ride. 2.2 for MBS and EMA at 8.0 which is well above top 5% for EMA. Using G691 our 780kg cow was a careful selection so we could put size into Shigesigetani, the added benefit from G691 was her grandsire Michifuku who will retain both EMA and MBS. This bull is more than a paddock bull he is worth collecting and AI'ing to your herd. Dam - No. of Calves 19 Age/Years 12 year old/2011. All Rocala Bulls had their Trivalent Tick Vaccine 15-06-2023.

T030 is our biggest bull calf from 2022 which is no surprise coming from our 40/1 Sire who weighs in at over 1000kg's called Champ. We generally use him for producing steers for bigger feedlot carcasses but as you can see going back to 151 and Michifuku on the Dam side he has thrown a MBS of 2.2 and well worth breeding from. Dam - No. of Calves 4 Age/ Years 7 year old/2016. All Rocala Bulls had their Trivalent Tick Vaccine 15-06-2023.

Shigeshigetani BULFS0022 is a full brother to BULFS0019 and provides a rare combination of two traits rarely seen together in Wagyu: strong marble score AND milk in the same animal. With a top 10% carcass weight to boot it is no surprise he hits the top 10% for ALL indexes and would be a great addition to either fullblood or F1 production. Dam - No. of Calves 87 Age/Years 9 year old/2014.

A beautifully balanced bull with an outstanding pedigree to match! Combining Haruki 2 and Suzutani with Itoshigenami on the sire's side, along with Michifuku and Terutani 40/1 on the dam's, this bull has it all. This is reflected in his top 5% score for both WBI and SRI, building on his excellent carcass weight (top 10%), EMA AND marble score (both top 15%). Dam - No. of Calves 87 Age/Years 9 year old/2014.

T0794 another direct son of Shigesigetani carefully bred through ET work. This time instead of Michifuku over TF148 on the Damside we went the opposite way with a TF148 line over a Michifuku line back to that same big cow G691 that we talked about a few times now. The sire of the Dam of this bull T0794 is ROCFC0414 he is the direct brother to that Dam ROCFCW415 of the last bull T0790. 2.0 for MBS and 7.2 for EMA and rare genetics makes this bull worth collecting. Dam - No. of Calves 5 Age/Years 4 year old/2019. All Rocala Bulls had their Trivalent Tick Vaccine 15-06-2023.

T0127 is Rocala's youngest offering but just like his Dam he will end up being the biggest, her ID is G0691 and at her peak weighed 780kg's. This is close to unheard of in a Fullblood Black Wagyu Cow, she has our respect and you will see she has had 19 progeny over the years and whenever they are steered they are first on the bus to the feedlot. Talking genetics that 40/1 son again go back to both the famous and original Blackmore and Goshu studs. G0412 the sire of G0691 once had 13 x-bred's killed for a 8.08 mbs av and a 459.78 cwt av. This is your best allrounder! Dam - No. of Calves 19 Age/Years 12 year old/2011. All Rocala Bulls had their Trivalent Tick Vaccine 15-06-2023.

T0789 is another direct son of Shigesigetani and is exactly the same on the Dam side as the last bull T0794. The Dam of this bull ROCFQ00932 was bred back in 2018 with high hopes. In 2013 we received some exceptional carcass data from her sire ROCFC0414, then we realised that he was the bull that was impaled on a star picket and died in a fight with another bull in 2010. Lucky we had collected him for 100 straws the year before he died and he lives on in this mating. Dam - No. of Calves 5 Age/Years 4 year old/2019. All Rocala Bulls had their Trivalent Tick Vaccine 15-06-2023.

T0799 is the progeny result of a JV between Thale and Rocala. That JV purchase of a Dam KPCFR00340 Dai-Ichika is well above top 1% in all size carcass and milk traits was purchased from Kaputar Wagyu. We joined her to a son of Jnr with her 1st flush and T0799 is the result. He has taken on the MBS ebv from his Sire and combined that with the maternal traits of his Dam. This bull is also a great allrounder for your herd. Dam - No. of Calves 1 Age/Years 3 year old/2020. All Rocala Bulls had their Trivalent Tick Vaccine 15-06-2023.

T0800 is a very well structured bull. Not just his EBV's but his structure and growth show that his EBV's speak for him very well. His sire United P342 needs no introduction. His Dam ROCALA YUNOHANA R1528 was purpose bred with "The ROC P800" who brings size & marbling over ROCALA ICHIHANA/1 P1368 who also bring size & marbling. "The ROC" not only won Gold with Jacks Creek 2023 Carcass Competition at AWA Conference but now has his 1st Carcass data back. He had 8 carcasses with 5 X 10 MBS, 2 X 9 MBS and 1 X 8 MBS to AV 9.5 MBS. Added to this his elite background in all 4 indexes are above top 1%. 50% Semen rights retained by Rocala Wagyu. Dam - No. of Calves 5 Age/Years 3 year old/2020. All Rocala Bulls had their Trivalent Tick Vaccine 15-06-2023.

LIVESTOCK AUCTION TERMS AND CONDITIONS OF SALE

CHAPTER ONE - PRELIMINARY

1. (a) A vendor is bound by these terms and conditions by offering livestock for sale by auction.
- (b) An agent (which includes an auctioneer) is bound by these terms and conditions by conducting an auction sale.
- (c) A buyer is bound by these terms and conditions by bidding at auction.
- (d) Competition and Consumer Act (Cth) 2010

It is unlawful for parties that are, or otherwise would be, in competition with each other to make, or give effect to, a contract, arrangement or understanding that contains a provision relating to:

- i. price-fixing; or
- ii. restricting outputs in the production and supply chain; or
- iii. allocating customers, suppliers or territories; or
- iv. bid-rigging; or
- v. collusive bidding.

Large fines and other sanctions may be imposed for unlawful conduct.

2. (a) In these terms the expression auctioneer, agent, buyer and vendor respectively includes the servants, contractors and agents of each of them. The auctioneer, agent, buyer and vendor shall be wholly responsible for the acts and omissions of their respective servants, contractors and agents. The term "auctioneer" includes, so far as the law and context permits, the vendor's agent.

(b) When used in these terms the expressions "companion animals" means all animals originating from the same property on a particular day. Where lots are split between establishments, then all of these animals shall be regarded as companions.

3. The following applies in interpreting these terms and conditions:

(a) The following words have the following meanings:

Fees means all levies, charges, fees, costs and other expenses incurred or relating to these terms and conditions and the sale and purchase of livestock including, without limitation, transaction levies, yard and weigh dues, cartage, advertising and rebates, and whether paid for, or incurred, by the agent;

Livestock means animals auctioned pursuant to these terms and conditions; and

Price means the amount at which the lot has been sold to the buyer referred to in clause 7 of these terms and conditions

- (i) plus any Fees and other expenses incurred in relation to the purchase of livestock that are payable by the buyer; and
- (ii) plus any GST added in accordance with clause 12;

(b) These terms and conditions are subject to legislation or regulation in the State in which the auction is conducted and in the event of any conflict then the legislation or regulation will prevail. The provisions of these terms and conditions are in addition to, and do not derogate from, the duties and rights of vendors, agents and buyers set out in legislation and regulation in the State in which the auction is conducted.

CHAPTER TWO - STANDARD TERMS OF SALE

4. Subject to any reserve price, and to the right, prior to the fall of the hammer, of the vendor to withdraw any lot without declaring the reserve, the highest bidder shall be the buyer.

5. The auctioneer has the right to bid on behalf of the vendor provided that right is notified prior to the commencement of the sale and is subject to State law.

6. A bid cannot be made or accepted after the fall of the hammer unless, in accordance with clause 8, the auctioneer decides to put the lot up again.

7. Prior to the fall of the hammer the auctioneer shall announce the last bid and receive any further bids. The last price called by the auctioneer at the fall of the hammer shall be the amount at which the lot has been sold.

8. In the event of a disputed bid, the auctioneer is the sole arbitrator of the successful bidder or the auctioneer may decide to put the lot up again. The auctioneer's decision is final.

9. The auctioneer may refuse to accept any bid which, in the auctioneer's opinion, is not in the best interest of the vendor and need not give reasons for doing so.

10. A bidder shall be deemed to be a principal unless, prior to bidding, the bidder has given to the auctioneer a copy of written authority to bid for or on behalf of another person.

11. The successful bidder at a livestock auction sale must give to the auctioneer at the fall of the hammer:

- (a) the purchaser's name; or
- (b) the bid card number which identifies the purchaser; or
- (c) the name of the person on whose behalf the successful bid was made; and
- (d) the Property Identification Code (known as the "PIC") of destination.

12. The auction shall be conducted on the basis that the bid price shall be exclusive of Goods and Services Tax (GST). GST shall be added after the fall of the hammer for those sales subject to GST.

13. The vendor warrants;

- (a) That the vendor has (or will have) the right to sell the livestock at the time of delivery; and
- (b) That the purchaser will obtain title on completion of the purchaser's obligations under this contract including payment.

14. If a buyer does not comply with any of these terms and conditions, which includes the requirement to pay, any limitation, restriction or condition to that buyer may be re-sold by public auction or private contract in whatever lots and manner the auctioneer decides. The re-sale may be with or without notice and shall be at the buyer's risk. The buyer is responsible for all loss and expense arising out of a re-sale and is not entitled to any resulting profit.

15. The buyer of livestock must pay the agent the full amount of the purchase price in immediate funds on receipt of a tax invoice. Payment is required prior to delivery unless some other time for payment is specified in an agreement between the buyer and the auctioneer that was made before the fall of the hammer. If, before delivery, payment has not been made then clauses 20 to 23 apply.

16. No person may bid unless, prior to the commencement of the sale, that person has made arrangements satisfactory to the auctioneer for payment for livestock purchased. If bids in breach of this condition are inadvertently accepted, delivery shall not be given until the purchase money is paid and any law, rule or practice to the contrary is accordingly negated as far as possible.

17. (a) Cattle sold on a liveweight basis that are weighed pre-sale are at the risk and expense of the buyer upon the fall of the hammer.

- (b) Cattle sold on a liveweight basis that are weighed post-sale are at the risk and expense of the buyer immediately after weighing.

- (c) All livestock other than cattle sold on a liveweight basis are at the risk and expense of the buyer upon the fall of the hammer.

18. (a) Subject to this clause the sale is complete on the fall of the hammer.

- (b) The time for rejection is the time commencing at the fall of the hammer and ending at the first of:

- (i) delivery is taken by a representative of the buyer;
- (ii) departure of the animal from the purchaser's delivery pen; or
- (iii) one hour after the last animal is:
 - a. in the case of pre-sale weighing, sold; or
 - b. in the case of post-sale weighing, weighed.

- (c) During the time for rejection the buyer may reject any animal which is lame, blind or diseased where that condition existed prior to the fall of the hammer but could not be reasonably observed when the animal was in the selling pen.

- (d) If the purchaser rejects an animal during the time for rejection then the sale of that animal is cancelled and the animal is returned to the vendor or sold on such terms as any buyer and the agent may agree, after the agent has disclosed the reasons for rejection to that buyer.

- (e) This subclause applies only to cattle which are sold in Queensland at auction for slaughter. The agent has responsibility for the prevention of loss or escape (but not death, sickness or injury) of those cattle from the time of the fall of the hammer, for delivery to and from the scales, to the buyer's delivery pen and onto the buyer's nominated transport. This responsibility ends at the earlier of those cattle boarding the buyer's nominated transport or sunset on the day after the sale. This

subclause does not apply if the agent makes an announcement to that effect prior to sale.

19. (a) Subject to the right of rejection in Clause 18, all conditions and warranties expressed or implied by law are hereby excluded from the sale to the extent that the law allows. All lots are open for inspection prior to the commencement of the sale and are sold with all faults, if any. No compensation shall be given for any faults, imperfections, errors of description, number in or of any lots sold or otherwise.

- (b) Any claim or objection arising out of an error or misdescription in the provision of relevant information in terms of legislation or regulation concerning the National Livestock Identification Scheme (NLIS) must be made by 5:00pm on the seventh day after the fall of the hammer. No objection, requisition or claim against the vendor or agent in respect of such error or misdescription can be made after that time.

- (c) Any statements made by the vendor or the auctioneer whether in writing or orally to the effect that any female has been pregnancy tested or scanned positive shall mean and require only that a certificate in writing shall be supplied to the buyer signed by a qualified veterinary surgeon or certified scanner certifying that the said female has been tested or scanned on the date specified in the certificate and that in the opinion of the surgeon or scanner was pregnant on that date.

- (d) For slaughter cattle, the agent undertakes to make every reasonable effort to ensure that any NLIS cattle device number is transferred from the saleyard PIC to the purchaser's PIC on the NLIS database no later than midnight on the day of the sale.

- (e) For other slaughter livestock the agent undertakes to make every reasonable effort to ensure that the NLIS information is transferred from the saleyard PIC to the purchaser's PIC on the NLIS database no later than midnight on the day of the sale.

- (f) Where livestock have a food safety or market eligibility status derived from the National Vendor Declaration (NVD) and/or the NLIS/ERP database, the agent will inform the buyers by pre-sale catalogue and/or announce the status prior to the offering of those lots.

20. If delivery is made to, or possession obtained by, the buyer or its representative before full payment of the Price, then until full payment is received, the buyer:

- (a) does not acquire title to the livestock;
- (b) holds the livestock as bailee only for the vendor;
- (c) must act in a fiduciary capacity in its relationship with the vendor;
- (d) must store the stock separately or so that they are readily distinguishable from other livestock owned by the buyer;
- (e) is responsible for the safety and well being of the livestock;
- (f) may make a bona fide sale for market value of any or all of the livestock. As between the buyer and the subsequent buyer, the sale shall be made by the buyer in its own name and not as agent for the vendor, however as between the vendor and buyer, the sale shall be made as bailee and agent for the vendor; and
- (g) must keep and account for the proceeds of any subsequent sale separately from its other money and hold those proceeds, together with the benefits of any rights against subsequent buyers, on trust for the vendor.

21. The purchaser agrees that:

- (a) Clause 20 creates a registrable security interest under the Personal Property Securities Act (Cth) 2009 (PPSA);
- (b) The Purchaser acknowledges the rights of the Seller (and/or the Agent if Clause 25 applies) to register a financing statement under the PPSA with respect to the security interest created by this clause;
- (c) the Livestock are collateral for the purposes of the PPSA;
- (d) to the extent permitted, the Purchaser waives any right the Purchaser has under the PPSA to receive notices; and
- (e) the date upon which the security interest created by this clause comes into force is the first date on which livestock are delivered pursuant to this contract.

22. The buyer may not make any claim against the vendor for actions by the vendor or its agent under clauses 20 to 21 and indemnifies the vendor and its agent against any loss, damage, costs, expenses, penalties, fines or claims suffered by the vendor, the agent or any person or entity arising from the vendor exercising its rights under clauses 20 or 21.

- 23.1. Clause 23 applies whenever the agent pays the vendor before being paid by the buyer, which the agent is not bound to do. The agent is then the del credere agent of the vendor at law.

- 23.2. The vendor hereby gives notice to the buyer of the assignments referred to in clause 23.3.

- 23.3. When this clause applies, in addition to any rights of the agent that arise by operation of the law, the parties agree that, subject to clause 23.5 the agent is subrogated to all rights of the vendor under these terms and conditions against the buyer.

- 23.4. The vendor acknowledges that the agent may take enforcement, repossession or other action to recover any livestock for which the buyer has not paid in full, or the Price of such livestock, owing by the buyer under these terms and conditions:

- (a) when this clause does not apply, as agent of the vendor (including by reselling the livestock); and
- (b) when this clause applies, on the agent's own behalf exercising the rights of the vendor by subrogation or assignment under these terms and conditions (whether in the vendor's name or not) and where title to the livestock has not passed to the agent, by selling the livestock as agent of the vendor without the agent having to account to the vendor for the proceeds of sale.

- 23.5. The agent may at any time, assign, transfer, securitise or otherwise dispose of all or any of its rights under these terms and conditions and any debts created pursuant to it (including, without limitation, the rights assigned to it under clause 23.3).

- 23.6. The vendor hereby irrevocably appoints the agent as the vendor's attorney to:

- (a) do at any time and in any manner as the agent thinks fit all acts necessary or desirable to perfect or improve the rights and interests afforded, or intended to be afforded, to the agent under these terms and conditions; and
- (b) appoint one or more sub-attorneys to do anything that the agent may do as the vendor's attorney.

- 23.7. These terms and conditions do not render the agent liable to the buyer as vendor nor entitle the buyer to set off against the agent any right the buyer may have against the vendor or otherwise.

- 23.8. The buyer acknowledges that the provisions of this clause 23 are intended solely for the benefit of the agent (and its assigns) and the vendor. The liabilities and obligations of the buyer will not be in any way affected:

- (a) by this clause 23, other than as it expressly provides; or
- (b) by the failure of the agent or the vendor or either of them to comply with the terms of this clause 23.

- 23.9. The buyer must pay all amounts payable to the vendor or the agent under these terms and conditions without any deduction, withholding, set off or counterclaim whatsoever, whether the benefit of a deduction, withholding, set off or counterclaim is alleged to exist in favour of the buyer as against the vendor or the agent in any capacity whatsoever or any other person including any assignor of the vendor's or the buyer's interests under these terms and conditions.

24. (a) The agent agrees that he is liable to pay to the vendor the Price, less such commission as is agreed between the vendor and the agent, and in the absence of any agreement such amount as is reasonable, and less the Fees that are payable by the vendor that were incurred by the agent on behalf of the vendor in relation to the sale of the livestock.

- (b) In the event that the buyer pays the Price or part of it direct to the vendor then the agent has no liability to the vendor for the amount of such payment. Further, if the agent pays the vendor any amount which the buyer also pays direct to the vendor in respect of the same livestock, then the vendor must repay the agent that amount and the agent must repay the vendor that amount to an account held in the name of the vendor by the agent.

- (c) Regardless of whether or not a sale has occurred the agent may, but is not under obligation so to do, instead of deducting payments owed to it by the vendor, debit the amount of the commission and fees to an account held in the name of the vendor by the agent.

25. (a) The auctioneer has been retained by the vendor as auctioneer for the purpose of selling the livestock comprised in the lots. The terms of

engagement between the auctioneer and the vendor do not extend to the provision of advice by the auctioneer to the vendor in relation to the safety or otherwise of the sale ring, the saleyards and the surrounding environments.

- (b) The vendor, the agent and the buyer agree to comply with their several duties under the Australian Animal Welfare Standards and Guidelines for the Land Transport of Livestock and further to consign, manage, receive, transport and handle livestock in accordance with any other or additional requirements of animal welfare legislation specific to the jurisdiction in which livestock are consigned, managed, received, transported and handled in the course of the auction process.

CHAPTER THREE - VENDOR WARRANTY FOR CORRECT PRESENTATION AND DECLARATION

26. This chapter applies only in the case of livestock and their companion animals sold at auction for slaughter when the buyer is the slaughterer and the livestock are transported direct from the sale yard to the meatworks at which they are slaughtered. This chapter does not apply if the buyer is a trader who subsequently resells the livestock to a slaughterer. A slaughterer is any person who pays the AMPFC Processor levy.

27. The warranty of a vendor is that livestock and their companion animals offered for sale at auction:

- (a) pass government and other regulatory authority requirements and inspections at the time of slaughter;
- (b) are of merchantable quality;
- (c) carry an NLIS device in accordance with State law;
- (d) in the case where a representation has been made in the pre-sale catalogue that the livestock have particular characteristics or are fit for a particular purpose or market and such representations are based on information in any document, the livestock will have those characteristics or will be fit for the particular purpose or market; and
- (e) all information in any document provided by the vendor is true, complete and correct in all material respects.

28. In the event of a breach by the vendor of the vendor's warranty and provided such breach is notified by the buyer to the agent by 5:00pm on the 7th day after the fall of the hammer then the buyer is not liable to pay the portion of the Price of such of the vendor's livestock to which the breach applies.

29. However if the breach by the vendor is such that the livestock are not rejected outright but are instead downgraded then the buyer will pay the value of the livestock at their next highest and best use.

30. In the case of a breach by the vendor of the vendor's warranty then the vendor will also be liable to the buyer for any further losses which the buyer might establish but the buyer will take all reasonable steps in co-operation with the agent and vendor to mitigate both the effect of the breach and the amount of any loss.

31. Where a sentient animal of a lot tests positive for chemical residue, or foreign material contamination and provided such test is certified and notified as required by these vendor warranty terms, then:

- (a) the buyer will be entitled to delay payment for the price of all livestock in that lot only; or
- (b) the vendor has the option, at the vendor's cost, of collecting the companion animals, if allowed by law; or of having the livestock slaughtered in which event the risk of further condemnations will be that of the vendor. Where product integrity is potentially jeopardised, the Processor has the right to refuse slaughter and send the livestock back to the consigning property at the vendor's cost.

32. The auctioneer is liable to the buyer in respect of any breach of the vendor's warranty arising out of:

- (a) any error, by the auctioneer, of transcription of information from the NVD completed by the vendor to the pre-sale catalogue or the buyers post-sale summary;
- (b) any failure by the auctioneer to notify the buyer, prior to bidding, of any breach by the vendor of the warranty of the vendor if the buyer establishes that the agent knew of such breach prior to the sale; and
- (c) any failure by the auctioneer to announce prior to bidding, or disclose in the pre-sale catalogue, that the vendor has failed to provide a NVD that is complete in all material respects.

CHAPTER FOUR - OWNERS RISK FOR CONDITION OF CATTLE

33. This chapter applies only in the case of cattle and their companion animals sold at auction for slaughter when the buyer is the slaughterer and the cattle are transported direct from the sale yard to the meatworks at which they are slaughtered. This chapter does not apply if the buyer is a trader who subsequently resells cattle to a slaughterer. A slaughterer is any person who pays the AMPFC Processor levy.

34. Owners risk reflects the producer's responsibility to provide slaughter cattle for sale that are fit for human consumption. Cattle are fit for human consumption if they are not condemned as unfit by government. Owners risk applies if the condemnation is due to a condition in the animal which the buyer establishes, by the relevant government certificate, existed prior to the fall of the hammer.

35. A buyer with the benefit of owners risk protection is not liable to pay the Price of that animal to the vendor. The buyer remains nevertheless liable for all costs incurred after the fall of the hammer in transport, slaughter, testing and disposal of the animal.

36. Owners risk protection is available to the buyer of cattle to which this chapter applies if all of the following are satisfied:

- (a) a certificate is issued by government which states the relevant NLIS RFID tag number and PIC, the date of the certificate, the reason for condemnation and that the reason for condemnation existed prior to the fall of the hammer;
- (b) the certificate is received by the selling agent either in its original form or by fax or electronic communication in the form of data, text or imaging by 5:00pm on the 7th day after the fall of the hammer; and
- (c) if the condemnation is due to chemical residue the certificate follows testing in a government approved laboratory which establishes maximum residue limits in excess of the Australian limit.

37. Owners risk does not apply, and the buyer must pay for the cattle, if the reason for condemnation is any of bruising, fever, partial condemnation or emaciation.

CHAPTER FIVE - NOTICES REQUIRED BY LEGISLATION

NSW Property, Stock and Business Agents Act 2002 Warnings

Penalties for collusive practices. It is an offence against the Property, Stock and Business Agents Act 2002 for a person to do any of the following as a result of a collusive practice, or to induce or attempt to induce another person by a collusive practice to do any of the following:

- (i) to abstain from bidding; or
- (ii) to bid to a limited extent only; or
- (iii) to do any other act that might prevent free and open competition.

Severe penalties may be imposed on persons convicted of collusive practices.

The auctioneer has the right to make one bid on behalf of the vendor if the auctioneer clearly and precisely announces that fact prior to the sale.

Tasmania Legislation. An auctioneer conducting a public auction must not appear to acknowledge the making of a bid if no bid was made. A person must not participate in collusive practices by way of making or receiving an unlawful promise to abstain from bidding, not to bid except to a limited extent or do any other thing which may prevent free and open competition.

WA Auction Sales Act 1973 s31 NOTICE.

- It is an offence to:
 - (i) induce or attempt to induce another person to abstain from bidding by means of a promise, expressed or implied, that the other person will have the right to elect to take over as buyer or to toss or draw lots to establish who is to become the owner;

- (ii) abstain or agree to abstain from bidding as a result of such a promise;

- (iii) knowingly enter or permit or cause to be entered in the auctioneer's record any name other than that of the actual successful bidder;

- (iv) enter in the auctioneer's record the name of the buyer other than that of the actual successful bidder; or

- (v) in the case of successful bidder supply wrong information as to the name of the buyer the auctioneer or to any person, firm or corporation on whose behalf the sale is conducted.

The vendor, or any person on behalf of the vendor, or the auctioneer have the right to make no more than three bids.
